ABOUT ME

- Passionate about computational neuroscience and physics. I enjoy exploring new knowledge through multidisciplinary courses and have cultivated various soft skills, including emotional intelligence, interpersonal relationships, and self-awareness. My current focus involves research in Brain-Machine Interfaces for autonomic modulation and image analysis. This field demonstrates my commitment to innovation and problem-solving. Additionally, cinema, reading, music, and dance provide me with a valuable space to discover unique and creative perspectives.

EDUCATION

- **Undergraduate in Data Science.** (2022-2025)
Universidad Externado de Colombia
- **Continuing Education (Open Year).** (2021)
Universidad de Los Andes
- **High School Education with specialization in basic sciences applied to engineering** (2020)
Colegio La Merced - Universidad Sergio Arboleda

NOTABLE CERTIFICATIONS

- **Code In Place**
Stanford University jun.2023
- **Data Visualization with Python**
IBM abr.2023
- **Data Analysis with Python**
IBM ene.2023
- **Developing Skills for Innovation in the Fourth Industrial Revolution**
Universidad Nacional de Colombia nov.2020
- **Academic English Proficiency C1**
Centro Colombo Americano 2019

AWARDS

- **First Data Visualization Competition**
Mejor Exposición
Catch Consulting Jun.2023
- **Valedictorian**
Highest recognition awarded to outstanding students of the graduating class
Colegio La Merced Nov.2020
